Avnet Tech Games

Join us for our 10th anniversary year!

2015 Scholarship Program

The **Avnet Tech Games** is an annual college technology competition that provides students with an opportunity to apply what they learn in school to real-world scenarios while they compete for scholarship dollars.

The Avnet Tech Games is looking for donors interested in investing in the technology workforce of tomorrow. Scholarship donations, made through our nonprofit partner, Scholarship America, are 100% tax-deductible.

The 2015 Avnet Tech Games includes a national Virtual Games competition, as well as an Arizona Onsite competition to be held on April 11, 2015 at The University of Advancing Technology in Tempe, Ariz.

Now in its 10th anniversary year, the Avnet Tech Games has awarded nearly $300,000 in scholarships and honorariums. Nationwide, more than 2,600 students and 215 faculty members from 85 colleges have participated in the Avnet Tech Games.

Benefits of being a scholarship donor include:

- Build your brand by showcasing your company or foundation to college students, Avnet executives and other business and community leaders.

- Scout future employees and interns by participating in the Avnet Tech Games Networking Hour.

- Be featured in our marketing campaign, which includes advertising, social media, signage and other benefits.

Act today to support technology education. Enhance our high-tech workforce. Prepare students for today's highly competitive job market!
